Quick Guide

- Entry-level Full Stack Developer with strong hands-on experience in React, Node.js, JavaScript, Python, and SQL.
- Experienced in building and integrating RESTful APIs, handling client-server communication..
- Developed and deployed responsive web applications with focus on clean UI, usability, and performance.
- Comfortable working with Git/GitHub, collaborative workflows, and continuous learning in fast-paced environments.

Education

Kavitha Memorial Degree College, Khammam — B.Sc (MCCS)	Aug 2021 – May 2024
Sri CV Raman Jr College, Khammam — MPC	Jun 2019 – Mar 2021

Technical Training

Full Stack Development Trainee - Nxtwave	Sep 2024 – Sep 2025
• Solved hands-on coding problems in Python, SQL, JavaScript, and Node.js. • Gained practical exposure to backend APIs, frontend UI, and databases.	

Certifications

Advanced Software Engineering Job Simulation Walmart Global Tech(Forage)	October 2025
• Completed a virtual job simulation focused on full-stack development, Git-based version control, and debugging. • Gained exposure to industry-style problem solving, code reviews, and scalable software practices.	

Projects

AI-Powered Resume & Cover Letter Generator	Live Demo
• Developed a web application using Gemini API to analyze job descriptions and user profiles, generating customized cover letters and ATS-optimized keywords. • Implemented skill-based content generation, experience-level adaptation, and responsive UI. • Deployed the application using Netlify. • Tools Used: React, Gemini API, Netlify, VS Code	
College Information Portal – React & Firebase	Live Website
• Built a full-fledged college information portal using React.js and Firebase. • Implemented user authentication features including Sign Up and Sign In using Firebase Authentication. • Developed modules for college map, notices, semester materials, and academic information. • Designed a CGPA calculator enabling students to compute scores by entering grades. • Tools Used: React.js, Firebase Authentication, Firestore, Vercel	

Technical Skills

Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Responsive Design, Browser Developer Tools, DOM Manipulation

Backend Technologies: Node.js, Express.js, JavaScript, Python, RESTful API Development, Authentication & Authorization, API Integration

Databases: MySQL, SQLite, Database Design, CRUD Operations, Query Optimization

Deployment & Tools: Vercel, Netlify, Render, GitHub Pages, Git & GitHub, VS Code, Postman
